Happy Holidays from the Alberta MFR Team!
Blaine Barody, Emily Barclay, Chad Moore and John Hein

Agency Enrolment Phase Concludes Dec 1st

Since Alberta MFR launched in April 2015, our team has been working across the province to engage with leaders from fire service organizations and other community-based first response groups. We are excited to be moving on from the enrolment phase in order to continue developing areas of support for our MFR partners. Your feedback on the program has been very positive and patients are benefitting from participation in the MFR network you have helped create. In 2017, we look forward to expanding optional training supports, including instructor-trainer opportunities, training equipment and online resources. Thank you for your continued partnership with Alberta MFR!

Planned activity for next period

- Finish gathering details and close enrolment process for outstanding agencies
- Complete awards and administration for the MFR Training & Equipment Fund 2016-2017
- Prepare for MFR response plan batch #5 implementation with EMS Dispatch

List of Alberta MFR Agencies

A public list of agencies enroled with Alberta MFR is available [HERE](#). New agencies are added as they wrap up enrolment and there are additional organizations participating that may not appear on the public list.
